PhotoFiltre 11 (64-bit & Unicode) This new version (which succeeds the Studio X version) will only be 64-bit for now. It supports lots of new formats like HDR, RAW, WebP, Jpeg2000. PhotoFiltre 11 is shareware and is limited to a 30-day trial period. At the end of the 30-day trial period, if you want to continue using it you will need to purchase a registration key. If, on the other hand you no longer want to continue using the program you must remove it from your system immediately. Compatibility: Windows 11 (64-bit), Windows 10 (64-bit), Windows 8 (64-bit), Windows 7 (64-bit), Vista (64-bit) PhotoFiltre 11 (follow the instructions on the forum) PhotoFiltre Studio X (32-bit) PhotoFiltre Studio is shareware and is limited to a 30-day trial period. At the end of the 30-day trial period, if you want to continue using it you will need to purchase a registration key. If, on the other hand you no longer want to continue using the program you must remove it from your system immediately. Compatibility: Windows 10, Windows 8, Windows 7, Vista, Win XP, Win NT, Win 2000 PhotoFiltre Studio X 10.14.1 (english version with setup / 11 Mb) PhotoFiltre Studio X 10.14.1 (english version in zip format / 11 Mb) Freeware versions (32-bit) PhotoFiltre 7 - Version with layers but more limited than the Studio X version PhotoFiltre 6 - Basic version without layers Compatibility: Windows 10, Windows 8, Windows 7, Vista, Win XP, Win NT, Win 2000 Language files (Studio X & 7) Copy the contents of the zip file into the installation directory of PhotoFiltre Studio. Place them in the same directory as the pfstudiox.exe program. PhotoFiltre Studio will use the first PLG (language file) it finds in alphabetical order. Remove the english translation file StudioEN.plg if needed to activate another language.
